The key to day trading cryptocurrencies

such as Bitcoin is to place multiple trades throughout the day (some traders will place well over 25+ trades in one day). The idea behind this is to accumulate as many small 'wins' (i.e. execute profitable trades) as possible, instead of going for one big winner. That one big winner might never come, whereas, it is much more likely that there will be many small pockets of opportunity that traders can capitalize on whilst day trading Bitcoin. Having ...
