Biography of Jane Jacobs (1916-2006), American-Canadian activist and publicist.

"Timing, skill, and talent all play an important role in creating a great photograph, but it is perhaps the most basic, primary element-the photographer's eye-which is most crucial. In The Eyes of the City Richard Sandler not only showcases decades-worth of his strong eye for street photography, but also the eyes of his subjects as he catches them looking into his camera at just the right moment. From 1977 to September 11th 2001, Richard regularly walked through Boston and New York City, encountering all that the streets had to offer, and the results are presented here, many for the first time. Sandler credits his fascination with street life to his years in New York as a teenager in the 1960s. Young Sandler, a frequent truant, spent much of his time in a very different Times Square than we know today. His quests were to buy illegal fireworks and visit the arcades and side shows, particularly Hubert's Flea Circus on 42nd Street. Manhattan was was a cyclone of faces- some at play, many clearly suffering. All eyes, ears, and heart, Sandler was sensitive to it all as a kid peering into this adult world. Such early impressions would come to play a significant role in his later street photography. Living in Boston in 1977, and after two careers involved in helping others, as a natural foods chef and acupuncturist, Sandler realized an overwhelming desire to do something for himself, alone. As if on cue, a late 1940s Leica appeared in his life and he hit the Boston streets in an experimental mood. He shot in Boston for three productive years and then moved back home to photograph an edgy, nervous, angry, dangerous New York City. In the 1980s crime and crack were on the rise and their effects were devastating the city. Graffiti exploded onto surfaces everywhere and the Times Square,

East Village, and Harlem streets were riddled with drugs, while in midtown the rich wore furs in vast numbers and ogreed was good. In the 1990s the city experienced drastic changes to lure in corporate interests and tourists and the results were directly felt on the streets as rents were raised and several neighborhoods were sanitized, making them ghosts of what, to many, made them formerly exciting. Throughout these turbulent and triumphant years Sandler paced the streets with all his knowledge of what the city was, ever on the lookout for what his eye connected to as it transformed and changed the lives of everyone who lived in it. For better and for worse, one was simply on the street in public space, bathing in the comforts, or terrors, of the human sea and Sandler's work is the marbled evidence of this beauty mixing with decay as only his eyes could capture it."

Jane Jacobs coined the phrase eyes on the street to depict those who maintain order in cities. Most criminologists assume these eyes belong to residents. In this Element we show that most of the eyes she described belonged to shopkeepers and property owners. They, along with governments, wield immense power through property ownership and regulation. From her work, we propose a Neo-Jacobian perspective to reframe how crime is connected to neighborhood function through deliberate decision-making at places. It advances three major turning points for criminology. This includes turns from: 1. residents to place managers as the primary source of informal social control; 2. ecological processes to outsiders' deliberate actions that create crime opportunities; and 3. a top-down macro- to bottom-up micro-spatial explanation of crime patterns. This perspective demonstrates the need for criminology to integrate further into economics, political science, urban planning, and history to improve crime control policies.

In this historical novel, a young orphan boy and street thief, Motorius, is captured by a criminal ring that offers him the chance for a new life, but at a price. Motorius is trained as an assassin and thrown into a deadly game of murder, political intrigue, sex, and revenge. As Motorius trains, he meets a stranger who claims to be a friend. Can Motorius trust this man? As the intrigue grows, the criminal group challenges the King for rule of the land. A final battle ensues. Who will lead the people? Is Motorius destined for a new role in his life? Follow the intriguing action in the fast-paced, suspenseful *Eyes in the Night: Book 1 of the Street King*.

Other Realms: Volume One is the first book in a new series that

collects original short stories by fantasy and sci-fi author Shaun Kilgore. In this volume, you'll be taken to far off fantasy worlds filled with magic, adventure, and the games of noble houses and the plights of brave warriors. This book contains ten stories, including "A Reckoning," "Death To The Messenger," "Midwinter Night," "Oathsworn," "The Beast Of Mern," "The Prophet's Return," "The Risen Queen," "The Ruling," "The Traitor," and "Winds Of Fate."

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

"He Walks with Dragons" takes place when what was, what is, and what shall be were one in the same. Draig, a boy on the verge of his manhood, is summoned to the majestic mountain by the Great Ones. There he finds out he is about to transcend the ages and risk his life to prevent the destruction of mankind. Born into the naïve innocence of ancient man, Draig lives a simple pastoral existence in a quiet, small village. But one day he is flung on a magical journey into a forbidden new world. There, Draconos, a dragon, befriends the boy, training him in the art of warfare. From this day forward, the young boy finds himself in awe at the wonders the world holds for him. Not only has Draig become a man, but he is living like a dragon and learning their mystical powers. "From the time Man first crawled upon this earth...we found him worthy to take his rightful place among the creatures that walk upon the earth. While hiding in the shadows, we have protected him. We have nurtured him all these many ages. But now man grows in great numbers and makes war on everything he sees." And when the time comes, will Draig be willing to lay down his life for the

sake of saving the dragons? And when the dragons are gone, where will he go? He is no longer just a man.

I've got 99 problems but money ain't one. Though a sister with cotton candy for brains, a spatula-wielding six-year-old niece with a British accent, and the mysterious businessman who left me that damn ticket are all currently vying for the top spot. When I became the sole winner of a \$270 million Megaball jackpot, thanks to a sexy stranger who left a lottery ticket instead of paying for his meal, my entire world flipped upside-down. Now, with money-sucking vultures, douchebags by the dozens, and a horde of total hotties just waiting to get their mangy paws on my newfound fortune, I set out to locate the man who gifted me the winning ticket--to properly thank him. However, when I finally find the cocky, self-absorbed business tycoon, Teague Goodman, I'm not sure whether I want to slap him... or ring his MEGABALLS.

About 25 million Americans are 65 and older. That figure will double during the next 25 years. Over the next 15 years, the baby boom generation will swell the ranks of middle-aged workers. But the numbers tell only half the story. The gradual decline in visual functioning that usually accompanies aging often goes undetected or is deemed untreatable. Older people may have difficulty seeing at night, reading small print, distinguishing similar colors, or coping with glare from a desktop or video display terminal. This report is the summary of a Conference held to identify and describe major research findings related to changing visual capacities and the employment of older workers, to recommend steps that could be taken by businesses to encourage the continued productive employment of older workers, and to identify research topics that have yet to be explored that might bear on this subject.

I will not surrender to terrorism By Mr.Gijo Vijayan. This book aims at preventing a person from becoming a terrorist. The author aim at killing the motive behind terrorism, whatever may be the reason behind. Forgive and forget, the world will be safer. An eye for an eye make the whole world blind, said Mahatma Gandhi. If you know anyone, who has extreme and radical views on religion or any ideology, that cause harm to society. This book can be an eye opener to narrow minded people, who think I am right and whole world is wrong. Stop revenge, forgive and forget, the world will be safer. For nations to live in peace, stop quest for dominance, stop trying to grab someone's land or sea. More investment in military makes common people suffer indirectly. Billions of dollars spent

on military expenses can be diverted for betterment of the lives of people, if there is no friction between nations. Billions of dollars spent on atom bombs, missiles, ships, fighter planes etc will eventually of no use to the betterment of humanity. If a third world war occurs, there won't be anyone left to celebrate victory, so it is foolishness to wage war in the name of any ideology or religion. There is only One way to stop terrorism - Education. When millions of people refuse to become terrorist at any cost - by applying thought, the purpose of this book is achieved. To kill terrorism, we must kill the motivation behind terrorism. When you refuse to become a terrorist, you make the world safer. When millions of people around the world refuse to become terrorists, we all win. So, take a pledge today itself, -I will not become a terrorist. -I will not allow my kids to become terrorists. -I will not change my mind, because of people or circumstances around me. -No media, politics or religion can manipulate me. -I will help misguided people to leave the path of terrorism.

Ordinary people are natural experts on safety in their own communities. The key to creating a city where people feel safe is to give citizens input into developing safer environments for themselves. This book offers a set of easy-to-follow guidelines - well illustrated with photos - that can be used to improve urban safety. It also includes success stories on the ways that ordinary people, working in partnership with local governments and agencies have taken the initiative to fight back against violent crime in public housing, transit, parks and open places, underground parking, schools, houses and neighbourhoods.

A career-spanning selection of previously uncollected writings and talks by the legendary author and activist No one did more to change how we look at cities than Jane Jacobs, the visionary urbanist and economic thinker whose 1961 book *The Death and Life of Great American Cities* started a global conversation that remains profoundly relevant more than half a century later. *Vital Little Plans* is an essential companion to *Death and Life* and Jacobs's

other books on urbanism, economics, politics, and ethics. It offers readers a unique survey of her entire career in forty short pieces that have never been collected in a single volume, from charming and incisive urban vignettes from the 1930s to the raw materials of her two unfinished books of the 2000s, together with introductions and annotations by editors Samuel Zipp and Nathan Storrington. Readers will find classics here, including Jacobs's breakout article "Downtown Is for People," as well as lesser-known gems like her speech at the inaugural Earth Day and a host of other rare or previously unavailable essays, articles, speeches, interviews, and lectures. Some pieces shed light on the development of her most famous insights, while others explore topics rarely dissected in her major works, from globalization to feminism to universal health care. With this book, published in Jacobs's centenary year, contemporary readers—whether well versed in her ideas or new to her writing—are finally able to appreciate the full scope of her remarkable voice and vision. At a time when urban life is booming and people all over the world are moving to cities, the words of Jane Jacobs have never been more significant. *Vital Little Plans* weaves a lifetime of ideas from the most prominent urbanist of the twentieth century into a book that's indispensable to life in the twenty-first. Praise for *Vital Little Plans* "Jacobs's work . . . was a singularly accurate prediction of the future we live in."—*The New Republic* "In *Vital Little Plans*, a new collection of the short writings and speeches of Jane Jacobs, one of the most influential thinkers on the built environment, editors Samuel Zipp and Nathan Storrington have done readers a great service."—*The Huffington Post* "A wonderful new anthology that captures [Jacobs's] confident prose and her empathetic, patient eye for the way humans live and work together."—*The Globe and Mail* "[A timely reminder] of the clarity and originality of [Jane Jacobs's] thought."—*Toronto Star* "[*Vital Little Plans*] comes to the foreground for [Jane Jacobs's] centennial, and in a time when more of Jacobs's prescient wisdom is needed."—*Metropolis* "[Jacobs] changed the debate on urban planning. . . . As [*Vital Little Plans*] shows, she never stopped refining her observations about how cities thrived."—*Minneapolis Star Tribune* "[Jane Jacobs] was one of three people I have met in a lifetime of meeting people who had an aura of sainthood about them. . . . might otherwise be inexplicable."—Adam Gopnik, *The New Yorker* "A rich, provocative, and insightful collection."—Reason  
What effects does digitization have on architecture? What role does artificial intelligence play in designing urban spaces? And how does this change the lives of people in the city? The Shenzhen Bi-City Biennial of Urbanism/Architecture 2019 addressed these questions and developed a multifaceted, multidisciplinary panorama of our present time and its visions of the future. The focus was on the new, omnipresent visibility of architectural spaces and their associated responsiveness. Individualized design strategies, altered forms of behavior, and new movements through urban space are encountered. Dystopias and utopias, chances and risks meet to draw a panorama of the city of tomorrow. This illustrated book compiles the contributions to this unique project and makes them hauntingly tangible, page by page.<sup>00</sup>The Shenzhen Bi-City Biennial of Urbanism/Architecture was founded in 2005 and is dedicated to the exploration of urban space in all its facets. Alternating between the cities of Shenzhen and Hong Kong, and with an ever-changing team of curators, it is a focal point for contemporary and future architecture.

After the wreck, I was in a coma. I died, and I went to hell. After looking into the eyes of the devil, God pulled me from hell, and only by God's grace did I survive. I woke up with eight broken ribs, collapsed lungs, chest tubes on both sides of my ribs, broken scapula, and all my hair was shaved off because of a scalp laceration

Is the answer to their problems to be found within the world of science-fiction or are they setting themselves up for yet more grief and sadness? The Missing Years of Thomas Pritchard August 3rd. 6:03am. The

tranquil summer's morning was shattered by the desperate screams of Thomas' mother echoing down the near deserted suburban street. The few people milling about outside getting ready for their daily business had said they couldn't make out what the cries were about when they were interviewed. Not initially. Not until Anne, a pretty woman in her early thirties with shoulder length blonde hair, spilled out onto the street wearing nothing more than her dressing gown and slippers anxiously calling out for her five year old son, Thomas, to come out from wherever he was hiding. Eye witnesses reported Anne was closely followed by her husband Bill - a professional, clean-shaven man in his late thirties with dark, short hair - half dressed for work in his suit trousers and unbuttoned white shirt, and that he too looked just as frantic as the mother did. The year was 2003; the year Thomas disappeared from his home without a trace. \* \* \* \* \* August 3rd. 6:03am. A young, fragile looking hand knocked confidently on the white PVC of the front door to number twenty-two. The hand belonged to a smartly dressed, skinny fourteen year old, fresh-faced boy. Whilst waiting for an answer to his knocking he slid a brown leather satchel off his shoulder down onto the floor as though the weight was too much for him to bear any more. He went to knock again but stopped himself when he heard the sound of footsteps from the other side of the door as the freshly woken homeowner came to answer his initial knocking. There was the slightest of pauses as keys were twisted in locks before the door opened as much as the strong, gold, security chain would permit it to. "Can I help you?" asked the homeowner, a frail looking woman in her late sixties. "Where's my mum?" asked the boy. The year was 2012; the year Thomas came home.

I've always thought that Matlacha (say Mat-la-SHAY), the funky Pine Island Florida fishing village cum art colony would be a perfect setting for a mystery, when along comes Jessie Murphy, the perfect gal to sort out the riff from the raff of it all. You've got to love this lady, a Goodwill fashion queen, who comes across as a ditzzy airhead whose best buddy is a Gargoyle named Gar. Jessie's taken time off from her job, thrilled to be rekindling the flame of romance with her treasure-hunting guy, Will Rolins, who adores her. Will has just made a wonderful archeological discovery, aka buried treasure. He's offered to support Jessie in her painting career if only she'll rejoin him in the sandy, salt-water and flip-flop lifestyle she adores. As she arrives in Matlacha, Jessie, to her horror, is met instead with the crime scene tape in place, bloodstains on the floor and pinholes where Will's treasure maps should have been. The sheriff insists that Will's death was a suicide but he refuses to release the police report and Jessie is bewildered. It is true that Will was often depressed and sometimes controlling. But why kill himself when he's fulfilled his life's dream? If he meant to kill himself why would he ask Jessie to join him? The facts don't sit straight with Jessie. She is determined to sort out the case. Jessie's a red-headed Irish Bostonian, whose art career has gone on the back burner as she struggles to earn a living. Meanwhile, certain investigative skills Jessie has acquired--a stint in a private investigator's office, classes in theater and karate--all come into play as she trails suspects and sometimes overplays her hand, arousing the suspicions of whoever it is who makes crank calls to her in the middle of the night. Do not be fooled, there's way more to Jessie than meets the eye, and do not, repeat, do not miss this true beach read with a pelican's eye view of Florida's magnificent barrier island landscapes. Sometimes, the things that a child hears about himself or herself is confusing to him or her. That is the case with the young boy in *Almond Eyes*. As a young child, he is constantly told that he has “beautiful Almond Eyes”. He doesn't understand what this means until he asks his mother. She explains that his eyes are shaped like almonds because he is Korean. The boy then notices the different eye shapes of all of his friends. This is a wonderful book about celebrating the differences among friends.

WITH A NEW INTRODUCTION FROM NEW YORK TIMES BEST-SELLING AUTHOR TAYARI JONES “How can a novel’s social criticism be so unflinching and clear, yet its plot moves like a house on fire? I am tempted to describe Petry as a magician for the many ways that *The Street* amazes, but this description cheapens her talent . . . Petry is a gifted artist.” — Tayari Jones, from the Introduction

The life and adventures of a New York street youth who moves to a farm.

The first major biography of the irrepressible woman who changed the way we view and live in cities, and whose influence can still be felt in any discussion of urban planning to this day. *Eyes on the Street* is a revelation of the phenomenal woman who raised three children, wrote seven groundbreaking books, saved neighborhoods, stopped expressways, was arrested twice, and engaged at home and on the streets in thousands of debates--all of which she won. Here is the child who challenged her third-grade teacher; the high school poet; the journalist who honed her writing skills at *Iron Age*, *Architectural Forum*, *Fortune*, and other outlets, while amassing the knowledge she would draw upon to write her most famous book, *The Death and Life of Great American Cities*. Here, too, is the activist who helped lead an ultimately successful protest against Robert Moses's proposed expressway through her beloved Greenwich Village; and who, in order to keep her sons out of the Vietnam War, moved to Canada, where she became as well known and admired as she was in the United States.  
*Art Savvy* is a systematic approach to understanding art. It gives you methods to assess a design and really see what the artist was doing. Unlike chaotic art writings, terms are clearly defined, categorized, organized and illustrated. It is designed to answer questions like: What things will allow me to understand art? What are the basic elements? What is concept art? Can you “read” a work of abstract art? Visual literacy is the ability to interpret, negotiate, and make meaning from information presented in art work. *Art Savvy* gives you this. Defining Terms: Often art terms are not clearly defined, are used interchangeably or get mixed up with

other types of analysis. For a thorough exploration of all aspects of art, photos of great works are referenced with color keyed notations to illustrate the 5 easy pieces: 1. Design Elements- Visual grammar, line, shape, form, mass etc. - definitions & how to see them. 2. Organization Principles- How elements are arranged and how this effects the concept. 3. Style- Relation to other groups of

work and formulas for design. 4. Technique- How methods and materials are used to impact the concept. 5. Concept- What this piece about. What major themes and elements were used. Assessment techniques in each section of Art Savvy will train your eye to always see these 5 aspects of any artwork. It is not attempting

judgments of relevance, philosophy, spiritual meanings and other ethereal aspects that a work may convey. This text poses the question: "What is the basic concept here?" but sticks to pure analysis and leaves all judgment to you and the experts. This field guide is a mini textbook on design principles that will let you understand art!
