Motivation and instruction | Center for Education Policy ...

Definitions of crucial constructs in the model, including ability beliefs, expectancies for success, and the components of subjective task values, are provided. These definitions are compared to those of related constructs, including self-efficacy, intrinsic and extrinsic motivation, and interest.

Expectancy-Value Theory of Achievement Motivation ...

In this chapter we focus on teachers' beliefs about student learning and motivation and their manifestation in classroom instruction. Teachers' beliefs appear to reflect longstanding attitudes, "common sense," and their experiences in education rather than research-based knowledge about learning and motivation.
