25EJ4B - CUMMINGS BRAIDEN

If you love the danger and sword-fighting of MERLIN, you'll like this! In a discontent kingdom, civil war is brewing. To unify the divided people, Conner, a nobleman of the court, devises a cunning plan to find an impersonator of the king's long-lost son and install him as a puppet prince. Four orphans are recruited to compete for the role, including a defiant boy named Sage. Sage knows that Conner's motives are more than questionable, yet his life balances on a sword's point - he must be chosen to play the prince or he will certainly be killed. As Sage's journey continues, layer upon layer of treachery and deceit unfold, until finally a truth is revealed that proves more dangerous than all of the lies put together.

Provides a detailed examination of the principles, concepts and charectaristics of the Kingdom of God, including Kings and Lords, Territory and Law, Citizens and Royal privilege, Culture and Economy as well as Destiny.

Instant New York Times bestseller One of Bustle's Most Anticipated Books of Summer 2020 "The perfect riveting summer read!"—BookBub In 1935 three women are forever changed when one of the most powerful hurricanes in history barrels toward the Florida Keys. For the tourists traveling on Henry Flagler's legendary Overseas Railroad, Labor Day weekend is an opportunity to forget the economic depression gripping the nation. But one person's paradise can be another's prison, and Key West-native Helen Berner yearns to escape. After the Cuban Revolution of 1933 leaves Mirta Perez's family in a precarious position, she agrees to an arranged marriage with a notorious American. Following her wedding in Havana, Mirta arrives in the Keys on her honeymoon. While she can't deny the growing attraction to her new husband, his illicit business interests may threaten not only her relationship, but her life. Elizabeth Preston's trip to Key West is a chance to save her once-wealthy family from their troubles after the Wall Street crash. Her quest takes her to the camps occupied by veterans of the Great War and pairs her with an unlikely ally on a treacherous hunt of his own. Over the course of the holiday weekend, the women's paths cross unexpectedly, and the danger swirling around them is matched only by the terrifying force of the deadly storm threatening the Keys.

A guide to low tech computer hacking covers such topics as social engineering, locks, penetration testing, and information security.

Contains summaries of the knowledge regarding the effects of 128 road safety measures. This title covers various areas of road safety including: traffic control; vehicle inspection; driver training; publicity campaigns; police enforcement; and, general policy instruments. Presents projects, including cards, an embellished journal and tote, and decorative wall pieces; offers step-by-step photographs of the essentials; and showcases the author's signature designs that readers can use.

A riveting account of Michael Eisner's outrageous, thrilling, and often self-destructive tenure as head of the Walt Disney Company Kim Masters, coauthor of the New York Times bestseller Hit & Run, has written a page-turning account of Michael Eisner's ascent at The Magic Kingdom. Based on hundreds of interviews with Hollywood's power players, she weaves Eisner's story together with those who have crossed his path: Barry Diller, Jeffrey Katzenberg, and Michael Ovitz. Masters traces Eisner's rivalry with Diller at ABC and Paramount and shows how at Disney, Eisner and Frank Wells rejuvenated the company. Masters also details the fallout between Eisner and Katzenberg (who was responsible for hits like Aladdin and The Lion King) after Wells's untimely death, and traces the move of uber-agent Michael Ovitz from CAA to an executive position at Disney, one of

Aleister Crowley's The Book of Lies is an important and complex work of occultism. Deciphering its many layers of hidden meaning requires a little patience and more than a beginner's knowledge of Thelema. For those interested in passing beyond the initiate stage, the reward offered by a deeper understanding of this challenging text is well worth the effort. This new 2018 edition of The Book of Lies from Kismet Publishing restores all of Crowley's original text, including the important keys, sigils and diagrams often omitted from reprints.

From the bestselling author of Jurassic Park, Timeline, and Sphere comes an enthralling novel about Victorian London's most notorious gold heist. London, 1855, when lavish wealth and appalling poverty exist side by side, one mysterious man navigates both worlds with perfect ease. Edward Pierce preys on the most prominent of the well-to-do as he cunningly orchestrates the crime of his century. Who would suspect that a gentleman of breeding could mastermind the extraordinary robbery aboard the pride of England's industrial era, the mighty steam locomotive? Based on fact, but studded with all the suspense and style of fiction, here is a classic historical thriller, set a decade before the age of dynamite—yet nonetheless explosive...

ney Experience" draws customers fromall around the world,. This book describes what it takes to achievethat level of Experience, and how any organization can do it withthe right strategy and attention to detail. When the Experience isenhanced, the opportunity arises to convert customers toambassadors who will share their Experience with others. Find "the experience" and what it means to theOrganization Learn the five levels of experience, and why most companiesfail at it Identify service problems that face every company in themarketplace Utilize the Experience Quotient and apply the I. C.A.R.E.principles Learn how to convert customers to ambassadors who share theirstory with others Customers are the lifeblood of business. A great product offeringisn't enough in today's marketplace, where everyone's looking foran "experience." Imagine the kind of value a Disney-levelcustomer experience could bring to your organization. TheExperience is a guide to getting there, from an insider'sperspective.

From the #1 New York Times-bestselling author of The 48 Laws of Power comes the definitive new book on decoding the behavior of the people around you Robert Greene is a master guide for millions of readers, distilling ancient wisdom and philosophy into essential texts for seekers of power, understanding and mastery. Now he turns to the most important subject of all - understanding people's drives and motivations, even when they are unconscious of them themselves. We are social animals. Our very lives depend on our relationships with people. Knowing why people do what they do is the most important tool we can possess, without which our other talents can only take us so far. Drawing from the ideas and examples of Pericles, Queen Elizabeth I, Martin Luther King Jr, and many others, Greene teaches us how to detach ourselves from our own emotions and master self-control, how to develop the empathy that leads to insight, how to look behind people's masks, and how to resist conformity to develop your singular sense of purpose. Whether at work, in relationships, or in shaping the world around you, The Laws of Human Nature offers brilliant tactics for success, self-improvement, and self-defense.

Never a shrinking violet, Hoshang Merchant came out of the closet early in his youth. A bard, a teacher, and a lover who has lived many lives, he is the quintessential gay who once cross-dressed, and yet defies categorization. In Secret Writings, he recounts his extraordinary life and splendid experiences ranging across countries and cultures. His is a story of the prejudice and neglect that are part of everyday gay life, and how he channelled his despair into creating poetry. He quotes Rumi, Ghalib, and Mir, and writes with searing honesty about his long and short love affairs, his 'improbable' sex life as both an initiator and a yielding partner, and his inner turmoil. Sex becomes love and love becomes poetry in his writing. Merchant yells at the moral guardians of law and culture, asks uncomfortable questions, and shocks his readers. This rare book opens a window to the myriad worlds of an avant-garde.

Special edition slipcase edition of John Green's Paper Towns, with pop-up paper town. From the bestselling author of The Fault in our Stars. Quentin Jacobsen has always loved Margo Roth Spiegelman, for Margo (and her adventures) are the stuff of legend at their high school. So when she one day climbs through his window and summons him on an all-night road trip of revenge he cannot help but follow. But the next day Margo doesn't come to school and a week later she is still missing. Q soon learns that there are clues in her disappearance . . . and they are for him. But as he gets deeper into the mystery - culminating in another awesome road trip across America - he becomes less sure of who and what he is looking for. Masterfully written by John Green, this is a thoughtful, insightful and hilarious coming-of-age story.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound poli-

cies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

To save a stranger's life, she put her own in the hands of a man who represented everything she loathed. Young CEO Marie Archer was shocked when her brother, Joseph, returned from the Middle East with a contract for a new office in the Kingdom of Alfidya, a royal fiancée, and a wedding four days away. Despite her concern over his rush to get married, there was nothing Marie wouldn't do for Joseph. She silenced the alarm bells echoing in her head and traveled halfway across the world with him to attend the wedding. The language barrier in Alfidya disoriented Marie, and she was bewildered when traditions demanded her involvement in the ceremony as the groom's sister. The bride's brother, Crown Prince Mazen Alfidy, fascinated Marie; a breathtakingly handsome man with mysterious eyes, his silent attentions to her only increased her confusion. The last thing she expected was the brutal betrayal by her beloved brother, forcing her into an arranged marriage with Prince Mazen to seal a Sisters Trading deal. Confined in the palace with a perfect stranger - a husband she doesn't know or trust - Marie's life is riddled with lies and secrets. Royal intrigue, traditions, and rules have put her in danger. Now, the new princess has a lot to learn, and many black keys to find. Can she open her heart to a world so unlike her own, or will her prejudices prevent her from finding happiness? Because when it comes to love, rules blur and traditions fade.

Lockpicking has become a popular topic with many in the security community. While many have chosen to learn the fine art of opening locks without keys, few people explore the fascinating methods of attack that are possible WITH keys. Keys to the Kingdom addresses the topics of impressioning, master key escalation, skeleton keys, and bumping attacks that go well beyond any treatment of these topics in the author's previous book, Practical Lock Picking. This material is all new and focuses on locks currently in use as well as ones that have recently emerged on the market. Hackers and pen testers or persons tasked with defending their infrastructure and property from invasion will find these techniques uniquely valuable. As with Deviant Ollam's previous book, Practical Lock Picking, Keys to the Kingdom includes full-color versions of all diagrams and photographs. Check out the companion website which includes instructional videos that provide readers with a full-on training seminar from the author. Excellent companion to Deviant Ollam's Practical Lock Picking Understand the typical failings of common security hardware in order to avoid these weaknesses Learn advanced methods of physical attack in order to be more successful with penetration testing Detailed full-color photos in the book make learning easy, and companion website is filled with invaluable training videos from Dev!

As Arthur Penhaligon seeks to find the seventh key, complete his quest to save the kingdom to which he is heir, and learn his true identity, he discovers that he has a greater purpose than he could have imagined.

Future economic growth lies in the value of experiences and transformations--good and services are no longer enough. We are on the threshold, say authors Pine and Gilmore, of the Experience Economy, a new economic era in which all businesses must orchestrate memorable events for their customers. The Experience Economy offers a creative, highly original, and yet eminently practical strategy for companies to script and stage the experiences that will transform the value of what they produce. From America Online to Walt Disney, the authors draw from a rich and varied mix of examples that showcase businesses in the midst of creating personal experiences for both consumers and businesses. The authors urge managers to look beyond traditional pricing factors like time and cost, and consider charging for the value of the transformation that an experience offers. Goods and services, say Pine and Gilmore, are no longer enough. Experiences and transformations are the basis for future economic growth, and The Experience Economy is the script from

which managers can begin to direct their own transformations.

Like one of the movie moguls of old, Michael Eisner is a titan -- feared, powerful, and almost magically successful. After rising through ABC television and Paramount Pictures, he awoke the sleeping giant of Disney and sent it stomping across the entertainment landscape. But since the tragic death of Frank Wells in a helicopter crash in 1994, he has lacked -- for the first time in his career -- a colleague who could temper his personality. The result, writes Kim Masters, has been a slide into a Nixonian paranoia and isolation. In *The Keys to the Kingdom*, Masters crafts a gripping account of this larger-than-life story of larger-than-life hubris, combining an insightful analysis of power in Hollywood with a vivid, deeply researched narrative that brings the personalities, the enmities, and the corporate mayhem to life.

One day Sophie comes home from school to find two questions in her mail: "Who are you?" and "Where does the world come from?" Before she knows it she is enrolled in a correspondence course with a mysterious philosopher. Thus begins Jostein Gaarder's unique novel, which is not only a mystery, but also a complete and entertaining history of philosophy.

What is true faith? In *The Power of Kingdom Faith*, Dr. Myles Munroe strips away the common errors and misconceptions surrounding faith to reveal the nature, character, and power of true faith, or, Kingdom faith. Kingdom faith trusts not in the promises of God but in the God who promises; seeks not the blessings of God, but the God who blesses. Kingdom faith will always be tested, but because it places its trust in the King of the universe, will always prevail under testing. Kingdom faith, therefore is a triumphant faith that will overcome the world.

Everyone knows that the best way to create customer loyalty is with service so good, so over the top, that it surprises and delights. But what if everyone is wrong? In their acclaimed bestseller *The Challenger Sale*, Matthew Dixon and his colleagues at CEB busted many longstanding myths about sales. Now they've turned their research and analysis to a new vital business subject—customer loyalty—with a new book that turns the conventional wisdom on its head. The idea that companies must delight customers by exceeding service expectations is so entrenched that managers rarely even question it. They devote untold time, energy, and resources to trying to dazzle people and inspire their undying loyalty. Yet CEB's careful research over five years and tens of thousands of respondents proves that the "dazzle factor" is wildly overrated—it simply doesn't predict repeat sales, share of wallet, or positive word-of-mouth. The reality: Loyalty is driven by how well a company delivers on its basic promises and solves day-to-day problems, not on how spectacular its service experience might be. Most customers don't want to be "wowed"; they want an effortless experience. And they are far more likely to punish you for bad service than to reward you for good service. If you put on your customer hat rather than your manager or marketer hat, this makes a lot of sense. What do you really want from your cable company, a free month of HBO when it screws up or a fast, painless restoration of your connection? What about your bank—do you want free cookies and a cheerful smile, even a personal relationship with your teller? Or just a quick in-and-out transaction and an easy way to get a refund when it accidentally overcharges on fees? The Effortless Experience takes readers on a fascinating journey deep inside the customer experience to reveal what really makes customers loyal—and disloyal. The authors lay out the four key pillars of a low-effort customer experience, along the way delivering robust data, shocking insights and profiles of companies that are already using the principles revealed by CEB's research, with great results. And they include many tools and templates you can start applying right away to improve service, reduce costs, decrease customer churn, and ultimately generate the elusive loyalty that the "dazzle factor" fails to deliver. The rewards are there for the taking, and the pathway to achieving them is now clearly marked.

What kind of first impression do you make? A first impression is the most important impression you'll ever make—and you get only one chance to make it. Business deals can be made or broken, first dates become second dates or not, friendships are created or fail to form; everything hinges on that all-important initial encounter. And yet most of us don't know how we're really seen by others. Many of us don't know how to make a good impression. Wouldn't you like others to see you as confident, interesting, attractive, and sincere? Ann Demarais, Ph.D., and Valerie White, Ph.D., consultants to many Fortune 100 companies as well as creators of First Impressions, Inc., a New York-based dating and consulting firm, offer you the keys to putting your best self forward in any new situation, whether you want to strike up a conversation at a party or are meeting a blind date or a new business client. You'll learn to see yourself as others see you, and how to tweak your style to create the impression that reflects the real you. Breaking down a successful first impression into its seven fundamentals, the authors show you how to master these principles so that you

can make the best first impression. They also show how to avoid common misunderstandings that leave others with a bad impression, how to reveal the four universal social gifts, and they outline practical steps you can take to enhance your personal charm. Informative and filled with enlightening research studies, do-it-yourself checklist reviews, and dozens of helpful case histories, *First Impressions* is a fun, groundbreaking, and long-overdue guide to the most important moment of virtually any relationship: the first.

Practical Lock Picking, 2nd Edition is presented with rich, detailed full-color diagrams and includes easy-to-follow lessons that allow even beginners to acquire the knowledge they need quickly. Everything from straightforward lock picking to quick-entry techniques like shimmying, bumping, and bypassing are explained and illustrated. Whether you're being hired to penetrate security or simply trying to harden your own defenses, this book is essential. This edition has been updated to reflect the changing landscape of tools and tactics which have emerged in recent years Detailed full-color photos make learning as easy as picking a lock Companion website is filled with indispensable lock picking videos Extensive appendix details tools and toolkits currently available for all your lock picking needs

An expert explains how the conventional wisdom about decision making can get us into trouble—and why experience can't be replaced by rules, procedures, or analytical methods. In making decisions, when should we go with our gut and when should we try to analyze every option? When should we use our intuition and when should we rely on logic and statistics? Most of us would probably agree that for important decisions, we should follow certain guidelines—gather as much information as possible, compare the options, pin down the goals before getting started. But in practice we make some of our best decisions by adapting to circumstances rather than blindly following procedures. In *Streetlights and Shadows*, Gary Klein debunks the conventional wisdom about how to make decisions. He takes ten commonly accepted claims about decision making and shows that they are better suited for the laboratory than for life. The standard advice works well when everything is clear, but the tough decisions involve shadowy conditions of complexity and ambiguity. Gathering masses of information, for example, works if the information is accurate and complete—but that doesn't often happen in the real world. (Think about the careful risk calculations that led to the downfall of the Wall Street investment houses.) Klein offers more realistic ideas about how to make decisions in real-life settings. He provides many examples—ranging from airline pilots and weather forecasters to sports announcers and Captain Jack Aubrey in Patrick O'Brian's *Master and Commander* novels—to make his point. All these decision makers saw things that others didn't. They used their expertise to pick up cues and to discern patterns and trends. We can make better decisions, Klein tells us, if we are prepared for complexity and ambiguity and if we will stop expecting the data to tell us everything.

This advanced manual brings locksmithing into the electronic age, with schematic diagrams for portable electronic picks to open magnetic key and card locks plus templates for making custom tools not available on the commercial market. Tips on enhancing finger sensitivity, increasing concentration power, constructing practice lock boxes and more will help you master the art and science of lock picking.

THE MILLION COPY INTERNATIONAL BESTSELLER Drawn from 3,000 years of the history of power, this is the definitive guide to help readers achieve for themselves what Queen Elizabeth I, Henry Kissinger, Louis XIV and Machiavelli learnt the hard way. Law 1: Never outshine the master Law 2: Never put too much trust in friends; learn how to use enemies Law 3: Conceal your intentions Law 4: Always say less than necessary. The text is bold and elegant, laid out in black and red throughout and replete with fables and unique word sculptures. The 48 laws are illustrated through the tactics, triumphs and failures of great figures from the past who have wielded - or been victimised by - power. _____ (From the Playboy interview with Jay-Z, April 2003)

PLAYBOY: Rap careers are usually over fast: one or two hits, then styles change and a new guy comes along. Why have you endured while other rappers haven't? JAY-Z: I would say that it's from still being able to relate to people. It's natural to lose yourself when you have success, to start surrounding yourself with fake people. In *The 48 Laws of Power*, it says the worst thing you can do is build a fortress around yourself. I still got the people who grew up with me, my cousin and my childhood friends. This guy right here (gestures to the studio manager), he's my friend, and he told me that one of my records, Volume Three, was wack. People set higher standards for me, and I love it. Whether you want to learn lockpicking or locksmithing, or choose locks that are virtually impossible to defeat, this classic will meet your needs. The top reference in the field since 1976, this book is perfect for everyone from beginners who want to master techniques step by illustrated step, to

pros who need an up-to-date, comprehensive shop manual. The Sixth Edition features: •Complete, illustrated coverage from a master locksmith. •Techniques and tips for lockpicking and fixing. •Safe opening and servicing techniques. •Coverage of electronic and high-security mechanical locks. •Auto lock opening and servicing how-tos. •An all-new Registered Locksmith test. •How to conduct a home security survey •How to start and run a locksmithing business, or get hired as a locksmith.

Ever wonder what lies beyond the doors, fences and ladders you pass every day? A hidden world of mystery, beauty and free fun awaits the curious who choose to seek adventure off the beaten path - without even leaving their own city. Access All Areas takes you behind the scenes to little-known urban spaces like utility tunnels, rooftops, abandoned buildings, construction sites and storm drains, unveiling the possibilities - and perils - of the world of urban exploration.

Contains the unabridged text King Lear as published in Volume XVII of Tkhe Caxton Edition of the Complete Works of William Shakespeare.

Practical Lock Picking, Second Edition, is an instructional manual that covers everything from straightforward lockpicking to quick-entry techniques such as shimmying, bumping, and bypassing. Written by Deviant Ollam, one of the security industry's best-known lockpicking teachers, and winner of the Best Book Bejtlich Read in 2010 award, this book contains detailed photos that make learning as easy as picking a lock. Material is offered in easy-to-follow lessons that allow even beginners to acquire the knowledge very quickly. Whether the student will be hired at some point to penetrate security or simply trying to harden his or her own defenses, this book is essential. This edition has been updated to reflect the changing landscape of tools and tactics which have emerged in recent years. It consists of 6 chapters that discuss topics such as the fundamentals of pin tumbler and wafer locks; the basics of picking, with emphasis on how to exploit weaknesses; tips for beginners on how to get very good and very fast in picking locks; advanced training; quick-entry tricks about shimmying, bumping, and bypassing; and pin tumblers in other configurations. This book is geared specifically toward penetration testers, security consultants, IT security profes-

sionals, and hackers. Detailed full-color photos make learning as easy as picking a lock Extensive appendix details tools and toolkits currently available for all your lock picking needs

Aeneas appears in The Illiad in vague snatches and starts as a traveling warrior of great piety who was loosely connected to the foundation of Rome. Virgil weaves these fragments into a powerful myth about the founding of Rome in The Aeneid. Aeneas travels from his native Troy to Italy then wages victorious war upon the Latins.

Master locksmith Steven Hampton reveals here the tricks and tools for bypassing keyed and combination locks from pin tumbler locks, mushroom and spool pin tumbler locks, wafer tumbler locks, warded locks and disk tumbler locks to tubular cylinder locks, magnetic locks, door locks, padlocks and automobile locks. Find the key to "seeing" into every lock and discovering its simplicity.

The Kingdom of God Is Within You, is a non-fiction book written by Leo Tolstoy. A philosophical treatise, the book was first published in Germany in 1894 after being banned in his home country of Russia. It is the culmination of thirty years of Tolstoy's thinking, and lays out a new organization for society based on a literal Christian interpretation. The Kingdom of God is Within You is a key text for Tolstoyan, nonviolent resistance, and Christian anarchist movements.

John Dewey's Democracy and Education addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, Democracy and Education is regarded as the seminal work on public education by one of the most important scholars of the century.

Epic, rewarding, and provocative, Elissa Sussman's original fairy tale tells the story of Aislynn, a princess who misbehaves and must give up her royal trappings and enter a life of service as a fairy godmother. Booklist wrote, "Sussman delightfully mixed dystopian tension with retold fairy tales, and the result is something wholly original." A cross between The Handmaid's Tale and Wicked, with a dash of Grimm and Disney thrown in, this original fairy tale is part coming-of-age story, part adventure, part sweet romance. Will Aislynn remain true to her vows and her royal family and turn

away from everything she longs for? Or will she stray from The Path and discover her own way? Includes a recipe for Fairy Godmother Bookbinder Bread, and a map.

The earliest of the four Gospels, the book portrays Jesus as an enigmatic figure, struggling with enemies, his inner and external demons, and with his devoted but disconcerted disciples. Unlike other gospels, his parables are obscure, to be explained secretly to his followers. With an introduction by Nick Cave

Instant #1 New York Times Bestseller & Wall Street Journal Bestseller In The Obstacle Is the Way and Ego Is the Enemy, bestselling author Ryan Holiday made ancient wisdom wildly popular with a new generation of leaders in sports, politics, and technology. In his new book, Stillness Is the Key, Holiday draws on timeless Stoic and Buddhist philosophy to show why slowing down is the secret weapon for those charging ahead. All great leaders, thinkers, artists, athletes, and visionaries share one indelible quality. It enables them to conquer their tempers. To avoid distraction and discover great insights. To achieve happiness and do the right thing. Ryan Holiday calls it stillness--to be steady while the world spins around you. In this book, he outlines a path for achieving this ancient, but urgently necessary way of living. Drawing on a wide range of history's greatest thinkers, from Confucius to Seneca, Marcus Aurelius to Thich Nhat Hanh, John Stuart Mill to Nietzsche, he argues that stillness is not mere inactivity, but the doorway to self-mastery, discipline, and focus. Holiday also examines figures who exemplified the power of stillness: baseball player Sadaharu Oh, whose study of Zen made him the greatest home run hitter of all time; Winston Churchill, who in balancing his busy public life with time spent laying bricks and painting at his Chartwell estate managed to save the world from annihilation in the process; Fred Rogers, who taught generations of children to see what was invisible to the eye; Anne Frank, whose journaling and love of nature guided her through unimaginable adversity. More than ever, people are overwhelmed. They face obstacles and egos and competition. Stillness Is the Key offers a simple but inspiring antidote to the stress of 24/7 news and social media. The stillness that we all seek is the path to meaning, contentment, and excellence in a world that needs more of it than ever.
