Solar Energy, the official journal of the International Solar Energy Society®, is devoted exclusively to the science and technology of solar energy applications.. The Society was founded in 1954 and is now incorporated as a non-profit educational and scientific institution. With participation encompassing 100 countries, ISES® serves as a centre for information on research and development in ...

Solar energy - Wikipedia

Solar energy is the most abundant form of energy available. Unlike fossil fuels that utility companies use to generate electricity, solar energy is a renewable, inexhaustible resource that produces no harmful carbon emissions. Going solar, therefore, is a smart way to work toward a healthier and more sustainable future for all of us.
