This book presents both theoretical research methods and practical uses of qualitative consumer and marketing research in Asia, as well as approaches to research with extended viewpoints and case studies on the specific research practices, identifying the distinctive characteristics and conditions of the Asian market. Starting with an introduction and a rationale for qualitative consumer and marketing research, which discuss interpretive research perspectives and key qualitative research traditions underlying the research, it then elaborates on research design, formulating research directions, research questions, re-

search methods, research validity and reliability, as well as research ethics. The book goes on to cover various key data-collection techniques, such as interviews, focus groups, observation and ethnography, online observation and netnography, and other alternative tools like projective techniques, autodiving and diaries. These include design of research setting (samples and sampling strategy, context, time) and research procedures (from entry to access and completion of the research project) with resources planning. In addition, the book also addresses data analysis and interpretation as well as presentation, dissemination, and sharing of research results through both academic and practical courses. Lastly, it derives key concepts by

reviewing classic research traditions and methods together with academic and practical studies.

KamaSutra In the literature of all countries there will be found a certain number of works treating especially of love. Everywhere the subject is dealt with differently, and from various points of view. In the present publication it is proposed to give a complete translation of what is considered the standard work on love in Sanscrit literature, and which is called the 'Vatsyayana Kama Sutra, ' or Aphorisms on Love, by Vatsyayana. The rough English translation of Kamasutra is pleasure (kama) treatise (sutra). In the West, since it was first (rather surreptitiously) translated and published back in 1883, the book has general-

ly been associated with a series of beautiful, ancient illustrations of a couple determinedly coupling in a variety of fascinating and often utterly improbable positions; as essentially the erotic counterpart to the ascetic asanas of yoga

What happens when the bottlenecks that stand between supply and demand in our culture go away and everything becomes

available to everyone? "The Long Tail" is a powerful new force in our economy: the rise of the niche. As the cost of reaching consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know. The Long Tail is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the

definition of what's commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches.

Freshman Lianne Challice is known to millions of fans as Princess Vindi. But sometimes a silver screen sorceress just wants to hang up her wand, tell her manager to shove it, and become a normal college student. Too bad that's harder than it looks. She's never lived a normal life. She hasn't been to school since kindergarten. And getting close to anyone is just too risky -- the last boy she kissed sold the story to a British tabloid. But she can't resist trying to get close to Daniel "DJ" Trevi, the hot, broody guy who spins tunes for hockey

games in the arena. Something's haunting his dark eyes, and she needs to know more. DJ's genius is for expressing the mood of the crowd with a ten second song snippet. With just a click and a fade, he can spread hope, pathos or elation among six thousand screaming fans. Too bad his college career is about to experience the same quick fade-out as one of his songs. He can't get close to Lianne, and he can't tell her why. And the fact that she seems to like him at all? Incredible.

Commentators on the media in Southeast Asia either emphasise with optimism the prospect for new media to provide possibilities for greater democratic discourse, or else, less optimistically, focus on the continuing ability of governments to exercise tight and sophisticated control of the media. This book explores these issues with reference to Malaysia and Singapore. It analyses how journalists monitor governments and cover elections, discussing what difference journalism makes; it examines citizen journalism, and the constraints on it, often self-imposed constraints; and it assesses how governments control the media, including outlining the development and current application of legal restrictions.

The Mark and the Void is Paul Murray's mad-cap new novel of institutional folly, following the success of his wildly original breakout hit, *Skippy Dies*. While marooned at his banking job in the bewilderingly damp and insular realm known as Ireland, Claude Martingale is approached by a down-on-his-luck author, Paul, looking for his next great subject. Claude finds that his life gets steadily more exciting under Paul's fictionalizing influence; he even falls in love with a beautiful waitress. But Paul's plan is not what it seems—and neither is Claude's employer, the Investment Bank of Torabundo, which swells through dodgy takeovers and derivatives trading until—well, you can probably guess how that shakes out. *The Mark and the Void* is the funniest novel ever written about the recent financial crisis, and a stirring examination of the deceptions carried out in the names of art and commerce.

There is a lot to know about cooking, more than can be learned in a lifetime, and for the last 20 years we have been eager to share our discoveries with you, our friends and readers. The Cook's Illustrated Cookbook represents the fruit of that labor. It contains 2,000 recipes, representing almost our entire repertoire. Looking back over this work as we edited this volume, we were reminded of some of our greatest hits, from Foolproof Pie Dough (we add vodka for an easy-to-roll-out but flaky crust), innumerable recipes based on brining and salting meats (our Brined

Thanksgiving Turkey in 1993 launched a nationwide trend), Slow-Roasted Beef (we salt a roast a day in advance and then use a very low oven to promote a tender, juicy result), Poached Salmon (a very shallow poaching liquid steams the fish instead of simmering it in water and robbing it of flavor), and the Ultimate Chocolate Chip Cookies (we brown the butter for better flavor). Our editors handpicked more than 2,000 recipes from the pages of the magazine to form this wide-ranging compendium of our greatest hits. More than just a great collection of foolproof recipes, The Cook's Illustrated Cookbook is also an authoritative cooking reference with clear hand-drawn illustrations for preparing the perfect omelet, carving a turkey, removing meat from lobsters, frosting a layer cake, shaping sandwich bread, and more. 150 test kitchen tips throughout the book solve real home-cooking problems such as how to revive tired herbs, why you shouldn't buy trimmed leeks, what you need to know about freezing and thawing chicken, when to rinse rice, and the best method for seasoning cast-iron (you can even run it through the dishwasher). An essential collection for fans of Cook's Illustrated

(and any discerning cook), The Cook's Illustrated Cookbook will keep you cooking for a lifetime - and guarantees impeccable results.

The Synergy of Microfinance underlines the significance of innovative financial and risk management tools and non-financial complementary services by microfinance institutions in poverty alleviation. It undertakes a nuanced analysis of financial instruments— microcredit, microsavings, microinsurance, microleasing and payment systems for money transfer— and non-financial services such as social intermediation, livelihood promotion and access to

broader market place. Given the diminished expectations on microcredit impact, the book highlights results from randomized control trial (RCT)-based studies around the world. It argues that exclusive access to microcredit alone may not suffice in alleviating poverty on a mass scale and could pose a financial risk for poor households or households that overborrow. There is also a discussion on the Andhra Pradesh microfinance crisis of 2010, and the developments that took place in its aftermath.

This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann. He traces LSDs path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. We follow Dr. Hofmanns trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmanns powerful conclusion that mystical experience may be our planets best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend the wonder, the mystery of

the divine in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people. Now, more than sixty years after the birth of Albert Hofmanns problem child, his vision of its true potential is more relevant, and more needed, than ever.

Can two people brought together by des-

perate circumstances help one another heal, and maybe even begin a new life? New York Times bestselling author Charles Martin's Send Down the Rain answers the questions of what it means—and what level of sacrifice it takes—to truly love someone. Allie is still recovering from the loss of her family's beloved waterfront restaurant on Florida's Gulf Coast when she loses her second husband to a terrifying highway accident. Devastated and losing hope, she shudders to contemplate the future—until a cherished person from her past returns. Joseph has been adrift for many years, wounded in both body and spirit and unable to come to terms with the trauma of his Vietnam War experiences. Just as he resolves to abandon his search for peace and live alone in a remote cabin in the Carolina mountains, he discovers a mother and her two small children lost in the forest. A man of character and strength, he instinctively steps in to help them get back to their home in Florida. There he will return to his own hometown—and witness the accident that launches a bittersweet reunion with his childhood sweetheart, Allie. When Joseph offers to help Allie rebuild her restaurant, it seems the flame may

reignite—until a forty-five-year-old secret begins to emerge, threatening to destroy all hope for their second chance at love. *Send Down the Rain* will take you on a journey that spans the sweltering migrant worker routes of south Florida, muddy battlefields of Vietnam, thickets of north-west North Carolina, and the idyllic shores of America's most beautiful beach (Cape San Blas). This book explores cultural polarization resultant decline in social cohesion in society and how information and communication technologies exacerbate the cultural polarization through phenomenon such as "echo chambers" of information that dam-

age the quality of online discourse. This book examines the nature of the information that is shared. Further this book identifies how the quality of online discourse and polarization induced through it leads to offline harm and negative outcomes in our society. This book discusses how wide-ranging information exchange on digital media can lead to two scenarios, namely, the formation of the public sphere or the formation of echo chambers. While the public sphere, which promotes greater diversity, is a well-researched domain, substantially less research has been conducted on echo chambers in relation to sociocultural activities, products or services. This book states that polarization induced by the formation and evolution of echo chambers in sociocultural realm such as around epidemic outbreaks, vaccination, health-care, education, and climate change is an emerging avenue of research due to its enormous impact in the shaping of our society. Therefore, this book argues that understanding the characteristics of sociocultural products related controversies is critical and valuable in developing interventions to reduce unhealthy societal and organizational polarisations. The develop-

ment of systematic knowledge is required to understand and address such a large scale and complex societal challenge so as to facilitate a deeper understanding and offer solutions to the growing issue of polarization in sociocultural context driven primarily through echo chambers. This book examines how technology enabled social media usage increases, and the complex structural outcomes such as echo chambers are likely to have an increasingly important role in shaping public opinion. This book appeals to readers with interest in developing a deeper and broader understanding of issues and initiatives related to the polarization of opinions on cultural products. These include readers and scholars from various disciplines, along with engaged organizational leaders, activists, policy makers, and common citizens.

Low-fat or low-carb? A recent *New York Times Magazine* (July 7, 2002) cover story answered this question and said that Dr. Atkins was right all along, "its not fat that makes us fat but carbohydrates." Though the government has spent hundreds of millions of dollars in research trying to prove that fat is the cause of obesity, there has been a subtle shift in the scientific consen-

sus over the past five years supporting what the low-carb diet doctors have been saying all along: if we eat less carbohydrates, we will lose weight and live longer. One of the toughest challenges of any diet is having enough variety and choices to keep the dieter from losing interest. The most common reason that people abandon their diet is boredom but 500 LOW CARB RECIPES: 500 Recipes, From Snacks to Dessert, That the Whole Family Will Love by Dana Carpender has more than enough recipes to keep even the most finicky dieter on track. With recipes for everything including hors d'oeuvres, snacks, breads, muffins, side dishes, entrees, cookies, cakes and much more, this is an endless supply for creating meals for the whole family night after night. Whether everyone in the family is on a diet or not, these recipes are proven winners with adults and kids alike. Also included: Many one-dish meals for single people--main dish salads, skillet suppers that include meat and vegetables, and hearty soups that are a full meal in a bowl. Ideas for breaking out of old ways of looking at food with suggestions that save time and money and change what is considered a normal meal

for breakfast, lunch and dinner. Information about where to find low-carbohydrate specialty products and descriptions of low-carb specialty foods found in grocery stores everywhere. An entire chapter that lists and describes low-carb substitute ingredients such as fats and oils, flour substitutes, liquids, seasonings and sweeteners. Dieters will be pleased to know that they can eat foods like guacamole, omelets, pizza, steak, ham and dessert without giving up great taste and still lose weight. There are enough recipes to create the perfect menu for any holiday of the year--including Thanksgiving. Each of the 500 recipes includes a carbohydrate count to help calculate the total carb intake of each menu. A celebration of the liberating power of consciousness—a triumphant book that

lets us witness an indomitable spirit and share in the pure joy of its own survival. In 1995, Jean-Dominique Bauby was the editor-in-chief of French Elle, the father of two young children, a 44-year-old man known and loved for his wit, his style, and his impassioned approach to life. By the end of the year he was also the victim of a rare kind of stroke to the brainstem. After 20 days in a coma, Bauby awoke into a body which had all but stopped working: only his left eye functioned, allowing him to see and, by blinking it, to make clear that his mind was unimpaired. Almost miraculously, he was soon able to express himself in the richest detail: dictating a word at a time, blinking to select each letter as the alphabet was recited to him slowly, over and over again. In the same way, he was able eventually to compose this extraordinary book. By turns wistful, mischievous, angry, and witty, Bauby bears witness to his determination to live as fully in his mind as he had been able to do in his body. He explains the joy, and deep sadness, of seeing his children and of hearing his aged father's voice on the phone. In magical sequences, he imagines traveling to other places and times and of lying next

to the woman he loves. Fed only intravenously, he imagines preparing and tasting the full flavor of delectable dishes. Again

and again he returns to an "inexhaustible reservoir of sensations," keeping in touch with himself and the life around him. Jean-Dominique Bauby died two days after the

French publication of *The Diving Bell and the Butterfly*. This book is a lasting testament to his life.
